CHEMSTRIP (OVEN CLEANER)

Aerosol Can

CONCENTATED ALKALINE CLEANER

OVENS, AND HOT PLATES

Hazardous according to the criteria set by NOH&S

FEATURES

- *BIODEGRADABLE.
- *EASY APPLICATION.
- *BUILT IN “ ONE SHOT” INDUSTRIAL STRENGTH DEGREASER.
- *IN BUILT FOAMING ACTION FOR EXTENDED CONTACT.
- * SUPERIOR RESULTS AT A MINIMUM COST.

THE PRODUCT

CHEMSTRIP dispensed via aerosol can produces white clinging foam, which readily attaches to the vertical walls of ovens, which produces an especially clean result. The CHEMSTRIP formula contains a balance of soil suspending agents, alkaline builders, water softeners and wetting agents to produce a far superior result. CHEMSTRIP may be used on all brands of cooking equipment.

HOW MUCH TO USE:

OVENS and GRILLS: Turn off pilot light in gas ovens, and **do not** re-light until cleaning procedure has been completed. Remove all racks, to increase speed of application preheat oven, **do not** exceed 90C turn oven off prior to commencing cleaning. Place newspaper or towelling around and under the oven to protect the floor and catch any seepage. SHAKE the can well before and during usage, should a blockage occur remove spray tip and rinse in fresh water, dry and replace.

Holding the can upright during usage, pointing directly at the surface to be cleaned 20cm away from the surface and away from the face. Start spraying with the back first, followed by the sidewall, ceiling, floor, racks and door. Ensure all surfaces receive a generous amount of coverage. Ensure no part of your body, hair, or cloths comes in contact with the sprayed area. Close door and allow to dwell for 5 minutes in warm ovens and 30 minutes in cold ovens. May be left a maximum of 12 hours or over night, how ever no longer then 12 hours. **DO NOT ALLOW PRODUCT TO DRY.**

Wipe clean with a damp cloth, rinsing frequently with warm water, Ensure no part of your body, hair, or cloths comes in contact with the sprayed area. All surfaces must be thoroughly rinsed and ventilated before being used again.

CAUTION: PRODUCT IS HIGHLY ALKALINE AND PROTECTIVE CLOTHING GLOVES AND GLASSES MUST BE WORN.
