product: **Bebrite – Carpet**

quantity available: 250 & 500mL, 1, 5, 15 & 25Litre

CARPET

CARPET EXTRACTION CLEANER

FEATURES

- * **BIODEGRADABLE * ENVIROMENTALLY FRIENDLY * NATURAL PRODUCT**
- * **POWERFUL FORMULA IDEAL FOR INDUSTRIAL CLEANING.**
- * **PLEASANT FRAGRANCE.**
- * **HIGH DILUTION RATE/ECONOMICAL USE RATE.**

DIRECTIONS FOR USE

CARPET can be diluted 700mls water with 300mls **CARPET** to a dilution of 900mls water to 100mls **CARPET**. The actual use concentration depends on the condition of the carpet being extracted and the type of soil to be removed. The use of hot water in the carpet extraction machine gives best results. Although **CARPET** is foam controlled, use of defoamers may be required on carpets with a high foam residue from previous cleaning. **CARPET** is suitable for use in all carpet extraction machines.

CARPET is effective as a carpet or fabric spot remover or as a pre spray.

PLEASE NOTE! It is wise with all carpet cleaning chemicals to check colour fastness and fabric compatibility. Apply **CARPET** to an inconspicuous area of carpet or fabric prior to general use.
